

CLAIM 1. (Amended)

I claim a garment and capacious sack portion combination, which comprises a means for concealing such combination.

CLAIM 2. (Amended)

The combination defined in claim 1 wherein the garment consists essentially of two independent clothing articles forming a reversible article in which, when combined with the capacious sack portion, prohibits the disclosure of the capacious sack portions.

REMARKS

I do ask that in the event that these claims are not allowable I would like a claim drafted that is allowable.
